

## **KAT Exploration Secures Large Land Packages Around Its Handcamp and Twi-lite Properties**

2010-02-08 10:42 ET - News Release

MOUNT PEARL, NL -- (MARKET WIRE) -- 02/08/10

KAT Exploration Inc. (PINKSHEETS: KATX) <http://www.katexploration.com/> would like to inform its investors that it has secured areas of interest around its Handcamp and Twi-lite properties.

The company thought it very important to stake the land packages around both these properties as gold is becoming the main interest amongst exploration companies today.

A total of 5,311 acres was staked around our Handcamp property along with 5,805 acres around the Twi-lite property.

This will now allow the company to carry out larger exploration programs in both these areas in a quest to extend the present gold discoveries.

As was previously mentioned in a press release, we are actively compiling data from our latest soil and rock samples and have just transported another 714 soil samples to Actlabs for analysis.

Upon completion of this project the final results will be posted to our website and will also be displayed at the PDAC mining conference in Toronto early March.

This press release contains forward-looking information within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and is subject to the Safe Harbor created by those sections. This material contains statements about expected future events and/or financial results that are forward-looking in nature and subject to risks and uncertainties. Such forward-looking statements by definition involve risks, uncertainties and other factors, which may cause the actual results, performance or achievements of KAT Exploration Inc. to be materially different from the statements made herein.
